# Accelerated Reader

15<sup>th</sup> January, 2019

There are many little ways  
to enlarge your child's world.  
**Love of books is the best of all.**

Jacqueline Kennedy Onassis

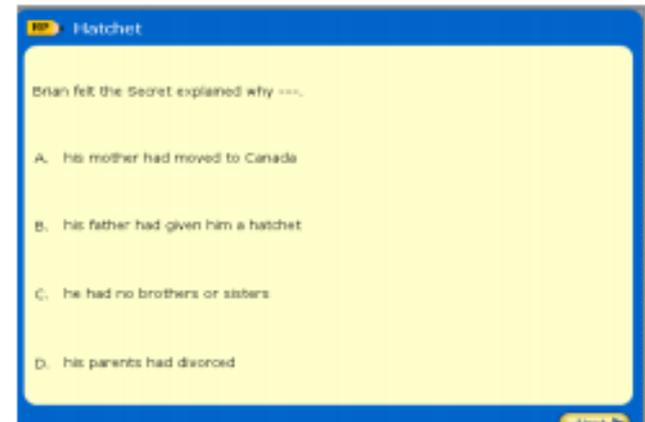

## *What is Accelerated Reader (AR)?*

AR is a computer program that helps teachers manage and monitor children's independent reading practice. Your child picks a book at his/her own level and reads it at his/her own pace. When finished, your child takes a short quiz on the computer - passing the quiz is an indication that your child has understood what has been read.

Teachers may assist pupils by:

- Guiding them to books appropriate to their ability and interests
- Asking probing questions as your child reads and before quizzing
- Pairing your child with others, reading with or reading to your child.

Since they are reading books at their own reading and interest levels, most children are likely to be successful and enjoy the books and quizzes. Best of all they learn and grow at their own pace.

Reader™**

# Star Reading

- 20 minute computer-adaptive test used to assess reading ability.
- Tracks reading growth.
- Provides students with a personalised reading range called the ZPD, and teachers with data to monitor student progress.

# Zone of Proximal Development (ZPD)

A range of book levels recommended for each student based on their reading ability  
The student has free rein to choose books from within their entire ZPD range

# Book Levels

●	3.0 - 3.4
●	3.5 - 3.9
●	4.0 - 4.4
●	4.5 - 4.9
●	5.0 - 5.4
●	5.5 - 5.9
●	6.0+

- Books levels range from .5 - 13.5. Every book has a quiz and an interest level. Books can be one of the three interest levels: lower years (ages 5-8), middle years (ages 9-13) and upper years (ages 14+). The books your child can select from in their classroom will always be suited for their interest level.

# Teachers Monitor Pupil Progress

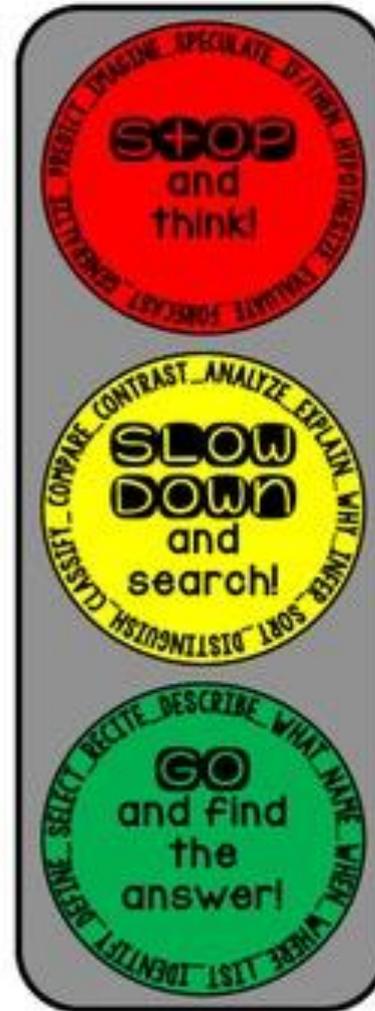

- Accelerated Reader provides instant feedback and tracks all scores
- Teachers monitor children's progress through reading with the children, questioning, quiz results and STAR Reader tests.
- Children should aim to get 85% or above on their comprehension quizzes. This indicates good comprehension and will lead to greater progress in reading ability. If children are failing their quizzes, this means they aren't reading enough at home. If this is the case, the class teacher will let you know about this
- You can see if your child moved up, when they have a different colour book and children will let you know. It is normal for children to stay on the same level of book for 8-12 weeks.

# Comprehension

- Questions to ask before, during and after reading
- Vocabulary words to point out and practise using in every day life context
- Connect to story (visualise, experience, feelings, stories)
- Ask a range of questions (who, what, when, which, why, how)

- Why do you think Goldilocks went inside the three bears house? What might she be thinking in the end of the story?
- What did Goldilocks do when she entered the three bears' house?
- What colour is Goldilocks' hair?

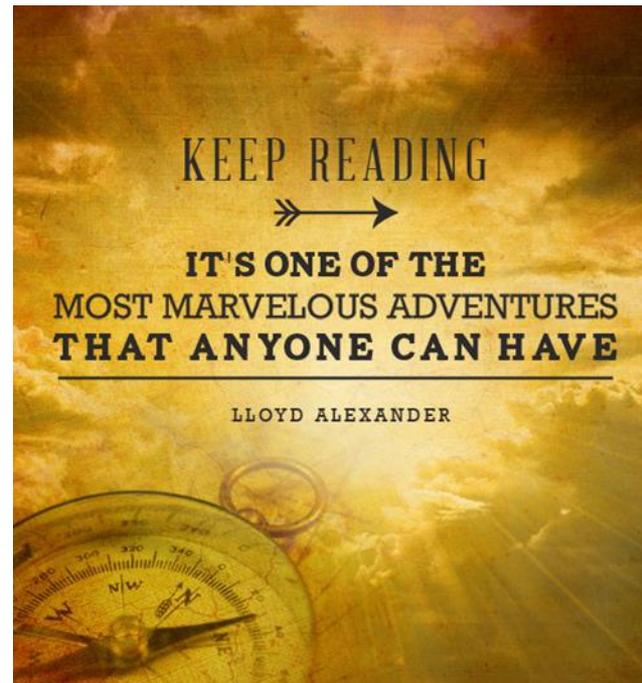

# Help Your Child Become a Better Reader

- Practise! Children should be reading 15-20 minutes everyday. Read with your child every day. Make it part of your routine. Once your child is reading, take turns to read to and listen to your child read.
- Provide a variety of experiences for your child. Many reading comprehension problems occur because a child lacks background information that would give meaning to words on a page.
- Be seen as a reader.
- Visit a library.
